

## **Designed for Modern Commercial Spaces**

Stratus enhances any environment with a refined multi-level loop design and a curated palette of six versatile colourways. Its clean texture delivers a polished, professional foundation that complements offices, retail, hospitality, and public spaces alike.

## **Performance You Can Count On**

Made from 100% solution-dyed nylon 6, Stratus resists fading, discoloration, and everyday staining. This advanced fibre system locks in colour at the molecular level, ensuring long-term visual consistency even in heavily used areas.

## **Built for High-Traffic Environments**

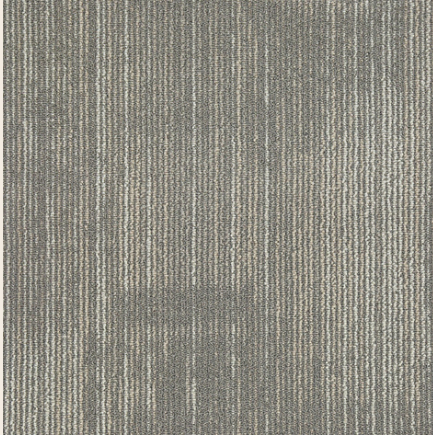

Engineered for heavy commercial applications, Stratus combines durability and stability with a comfortable underfoot feel. Its dense construction maintains integrity over time, standing up to foot traffic, rolling loads, and wear without compromising appearance.

## **Easy to Maintain and Install**

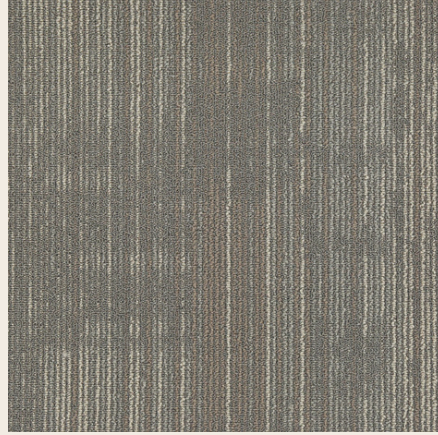

Stratus is designed to simplify everyday maintenance and long-term care. The polyester felt backing provides reliable performance and installation flexibility, helping your floors stay clean, functional, and professional with minimal effort.
